Education

Vellore Institute of Technology <i>B.Tech in Computer Science and Engineering; Minor in E-Commerce Technology</i>	Sept 2022 – Ongoing CGPA: 8.53
SOS Hermann Gmeiner School, Varanasi <i>CBSE — Class XII</i>	2021 89.6%
SOS Hermann Gmeiner School, Varanasi <i>CBSE — Class X</i>	2019 88.4%

Technical Skills

Programming Languages: Java, JavaScript
Backend Development: Node.js, Express.js, RESTful API Design, JWT Authentication
Frontend Development: React.js, Redux Toolkit, HTML, CSS
Databases: MongoDB (Schema Design, Indexing, Aggregations), MySQL
Tools & Platforms: Git, GitHub, VS Code

Projects

Food Rescue Management System <i>MERN Stack, JWT, Google Maps API, i18n</i>	Jan 2026 – Present
- Architected a scalable full-stack MERN platform with RESTful APIs, JWT authentication, and RBAC to manage end-to-end food donation workflows, approval pipelines, and real-time status tracking. - Integrated AI-powered 24/7 support chatbot and geospatial volunteer auto-assignment using Google Maps Distance Matrix API to compute shortest-path routing, improving pickup efficiency by 40%. - Designed MongoDB schemas and backend services to manage users, food listings, and donation records efficiently.	
ShopMart <i>MongoDB, Express.js, React.js, Node.js, Redux Toolkit</i>	Dec 2025
- Engineered a scalable full-stack e-commerce platform using MERN stack with RESTful APIs for product catalog, cart, checkout, and admin workflows. - Implemented JWT-based authentication with RBAC; optimized MongoDB aggregation pipelines and indexing, reducing query latency by up to 35% under test load. - Delivered core e-commerce workflows including product catalog, cart, checkout, and administrative management features.	
Quiz Management Platform <i>MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS</i>	Apr 2025
- Built a full-stack quiz platform using MERN stack with JWT authentication, RBAC, timed assessments, and real-time scoring for participants and administrators. - Designed modular RESTful backend services and optimized MongoDB schemas with aggregation pipelines, improving data retrieval efficiency and ensuring scalability across users, quizzes, and results. - Developed a responsive admin dashboard using React.js and Tailwind CSS for quiz creation, content moderation, and result management with role-specific access control.	

Certifications

• Oracle Cloud Infrastructure Certified Data Science Professional	Oct 2025
• Oracle Cloud Infrastructure Certified Foundations Associate	Oct 2025
• Full Stack Developer (MERN) — Smart Bridge	Jan 2025 – Apr 2025
• MongoDB Atlas & Node.js	Apr 2025
• Mastering Data Structures & Algorithms in Java — FacePrep	Jan 2025 – Apr 2025

Extra-Curricular

- Competed in the Adobe India Hackathon, leveraging skills in data structures, algorithms, and time-space complexity to develop innovative solutions under tight deadlines.
- Core Member, GeeksforGeeks Club Led social media campaigns and technical outreach, increasing online engagement by 40% through strategic content planning and event promotion.
- Secured 3rd place in inter-college weightlifting championship, demonstrating discipline, resilience, and goal-driven mindset.
