Technical Skills

Java, C++, HTML/CSS, JavaScript, React.js, Node.js, Express.js, RESTful APIs, MongoDB, MySQL, JWT, GitHub, VS Code

Projects

Food Rescue Management System | *MongoDB, Express.js, React.js, Node.js, JWT* Nov 2025 – Present

- Developed a full-stack food rescue management system with JWT-based authentication and role-based access for donors and administrators.
- Implemented RESTful APIs using Node.js and Express.js to handle food donation submissions, approval workflows, and status updates.
- Designed MongoDB schemas and backend services to manage users, food listings, and donation records efficiently.
- Integrated a React.js frontend with role-specific views, improving donation tracking and approval efficiency.

ShopEZ | *MongoDB, Express.js, React.js, Node.js, Redux Toolkit* Jan 2025 – Apr 2025

- Engineered a full-stack e-commerce platform on the MERN stack, exposing RESTful APIs for real-time client-server communication and modular feature delivery.
- Implemented JWT authentication with role-based access control (RBAC), strengthening authorization paths and preventing unauthorized access during QA and UAT.
- Delivered core e-commerce workflows including product catalog, cart, checkout, and administrative management features.
- Optimized MongoDB schema design, aggregations, and indexes, reducing high-latency queries and improving response times by up to 35% under test load.

Quiz Management Platform | *MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS* Nov 2024 – Dec 2024

- Developed a full-stack quiz management platform with JWT-based user authentication and role-specific access for participants and administrators.
- Implemented dynamic quiz workflows including timed questions, real-time scoring, and result evaluation using a responsive, component-driven UI.
- Built an admin dashboard to create and manage quizzes and questions, enabling controlled content updates and moderation.
- Designed modular backend services and MongoDB data models to manage users, quizzes, and results with a focus on scalability and maintainability.

Extra-Curricular

- Tech Lead, Rajasthan Club** — Orchestrated technical workshops and hackathons, leading a 15-member team; attracted 500+ participants and strengthened the club's technical brand.
- Microsoft Club** — Contributed to event planning, logistics for 200+ attendees, and on-ground operations with a 12-member team to ensure seamless execution and high engagement.
- Nature and Trekking Club** — Participated in environmental drives and organized trekking expeditions promoting sustainability and teamwork.

Certifications

- Oracle Cloud Infrastructure Certified Data Science Professional Oct 2025
- Oracle Cloud Infrastructure Certified Foundations Associate Oct 2025
- Full Stack Developer (MERN) — Smart Bridge Jan 2025 – Apr 2025
- MongoDB Atlas & Node.js Apr 2025
- Mastering Data Structures & Algorithms in Java — FacePrep Jan 2025 – Apr 2025

Education

Vellore Institute of Technology Aug 2022 – Present
B.Tech in Computer Science and Engineering; Minor in E-Commerce Technology CGPA: 8.53

SOS Hermann Gmeiner School, Varanasi 2021
CBSE — Class XII 89.6%

SOS Hermann Gmeiner School, Varanasi 2019
CBSE — Class X 88.4%
