Technical Skills

Java, MySQL, C++, Python, HTML/CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, AWS VS Code, Git, GitHub

Projects

ShopEZ | MongoDB, Express.js, React.js, Node.js, Redux Toolkit

Jan 2025 – Apr 2025

- Developed a complete full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js), enabling dynamic interaction between frontend and backend with RESTful APIs.
- Implemented secure user authentication and role-based authorization using JSON Web Tokens (JWT), allowing seamless access control for both customers and administrators.
- Built intuitive features such as product browsing, category-based filtering, cart management, order placement, and customer reviews to enhance the shopping experience. Designed an admin dashboard for managing products, orders, and users.
- Utilized MongoDB for efficient data handling, improving application performance and scalability.

Supply Chain Management | Blockchain

Aug 2024 – Sep 2024

- Designed and developed a blockchain-based supply chain management system to ensure transparency, traceability, and security across the supply chain. The system allows stakeholders to track and verify the origin, movement and authenticity of products in real-time.
- Increased transparency and traceability in the supply chain, reducing fraud and errors by 40 %.
- Improved stakeholder trust and compliance with regulatory requirements through immutable and auditable records.

Stock Market Prediction Classification Model | Python, RL

May 2024 – Jun 2024

- Developed a stock market prediction classification model as our academic project which has a prediction accuracy of 92%.
- Implemented the project using the concept of reinforcement learning using technical indicators such as moving averages, relative strength index and rate of change.
- Fine-tuned the prediction model with Random Forest Classifier, improving decision boundaries and reducing false positives.
- Documented results, created visualizations of price trends vs. predictions, and presented findings as part of the academic project.

Extra-Curricular

- **Tech Lead**, Rajasthan Club- Orchestrated technical workshops and hackathons, leading a 15-member team, successfully attracting over 500 participants and establishing the club's technical reputation.
- Volunteered at a Microsoft Club event, contributing to event planning, logistics coordination for 200+ attendees, and on-ground management alongside a team of 12 volunteers, ensuring seamless execution and participant engagement..
- Volunteered at the Advitya Event organized by the university as member of Disciplinary Committee — actively contributed to event planning, logistics coordination, and on-ground management.
- Member of Nature and Trekking Club, participated in environmental awareness drives and organized trekking expedition promoting sustainability and teamwork.

Certifications

- Full Stack Developer MERN, Smart Bridge Jan – Apr 2025
- MongoDB Atlas, Node.js Apr 2025
- Problem Solvers: Mastering Data Structures & Algorithms In JAVA - FacePrep Jan – Apr 2025
- HTML, CSS and JavaScript for Web Developers (Coursera) Jan 2024

Education

Vellore Institute of Technology - Bhopal

B.Tech in Computer Science and Engineering, with Minor in E-Commerce Technology

Aug 2022 - Present

CGPA: 8.49

SOS Hermann Gmeiner School - Varanasi

CBSE Board – Class XII

2021

Percentage: 89.6%

SOS Hermann Gmeiner School - Varanasi

CBSE Board – Class X

2019

Percentage: 88.4%
